

Unfold: Through the Wall

Game designers: Alexander Peshkov, Ekaterina Pluzhnikova

Illustrator: Ross Taylor

Size: 10x7.8x0,4 cm

Unfold: Through the Wall is a special demo game from the Unfold range.

Unfold is a series of stand-alone escape-room games fitting in a compact envelope. The series subdivides to the adult line, which includes Dark Story and Victim of the Pyramid, and to the Kids line with Mission Cookies and Lollipop Inc.

Unfold: Through the Wall is a separate mini-game rather than a conventional PnP that demonstrates the mechanics of the Unfold games. This magical adventure fits in a small envelope and contains 3 tasks to solve. It is a perfect example of everything that makes the series unique:

- captivating plot that literally unfolds right in front of you
- unconventional puzzles which require both logic and senses
- smart components which should be applied to solve tasks - in this demo version there's a magnetized wand
- special tab system to check the answers, hints and solutions

Purpose:

A promotional tool to introduce the Unfold series to customers at shops and, thus, **to raise the awareness about the product and increase sales.**

Key points:

- A great introduction to the Unfold series AND escape-room games in general, can work for entire stores stock
- Gives examples of different types of puzzles the series has: testing logic, senses, and other skills
- High-quality illustrations
- 3 puzzles are enough to show the concept of the series and provoke to play more

Unfold series games:

Unfold Kids: Lollipop Inc.

Unfold Kids: Mission Cookies

Unfold: The Victim of the Pyramid

Unfold: Dark Story
