# GAME RULES

## SET-UP

Write down your starting time or turn on a stop-watch to measure the length of the game.

## PLAYING THE GAME

Read the story starting from page **1**.

**!** Always follow the instructions at the bottom of each page.

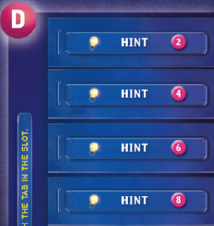

**To solve a puzzle, pay close attention to the highlighted words.**

Usually, everything you need is on the page in front of you. But sometimes you will need items you have found earlier. Leave such items on the table in front of you — you will soon need them to solve one or several puzzles.

## HINTS

If you cannot solve a puzzle, use a hint. Open the tab with the page number of the puzzle in **chart D** “Hints”.

**Advice:** we strongly encourage you to use hints when you are out of ideas!

## CHECKING YOUR SOLUTION

The solution to a puzzle can be a number, a symbol or a combination of letters and numbers.

As soon as you find an answer, check it in **chart C** “Check your solution”.

To do so, find the number of the page with the puzzle in the chart. The tabs next to it represent the possible solutions. Find your answer among them and carefully open the tab.

**Advice:** you may use a pen or a pencil to pry the tabs open.

If you see a green check mark , your answer is correct! Follow the instructions and turn over the indicated page.

If you see a red cross  or you don't find your answer at all, you have made a mistake. Try to find another solution or check out the hint.

**Important:** to complete the game you will need to tear some components along the dotted line, take them out of their slots or unstick from the pages. Do not hesitate to do it! However you do not need to tear or crumble the components themselves. Do not scratch off the varnish nor write on them, and later on you'll be able to lend the game to your friends.
