◉ How to solve the puzzle?

As a rule, all elements needed to solve the puzzle are on the spread in front of you. Sometimes you'll need to use the components you've found in one of the previous locations. If you need to note something down, use a pen and a piece of paper. All answers to the puzzles are symbols. To solve a puzzle, pay close attention to the highlighted words.

Don't hesitate to use a hint! To request it, open the corresponding tab on **PAGE D**.

◉ Found the answer? Check your solution.

Once you solve a puzzle, check your solution using

the **CHECK YOUR ANSWER** table (**PAGE C**) and open the corresponding tab.

🔴 Did you reveal a red X or your answer is not amongst the options? You have made a mistake! Try to find another solution.

🟢 Did you reveal a green check mark? Congratulations, you've solved the puzzle correctly! Now follow the instructions and turn over the indicated page.

Still don't know how to solve the puzzle after reading a hint? Look up the solution on **PAGE A**, but only as a last resort!

Remember, every time you request a hint or a solution, mark it down on a piece of paper. At the end of the game add:

- **1 minute** for each opened hint on **PAGE D**;
- **2 minutes** for each opened tab with a red X on **PAGE C**;
- **5 minutes** for each opened solution tab on **PAGE A**.

Some components are affixed to pages. When required, gently detach the item from the page, remove it from the slot, or carefully tear it off along the perforation line.
